News Release

A.R.C. DISTRIBUTORS INTRODUCES "A BETTER MOUSETRAP"

THE CLEAR-VIEW WHEELCHAIR POUCH!!

Most wheelchair manufacturers offer rear mounting pouches, at additional cost, to hold patient information while the patient is being transported throughout the hospital. However, these pouches are opaque and often become trash receptacles, or worse yet, a place where patient information (a chart, I.D. badge, etc) can be forgotten and will be lost as that wheelchair is used again and again throughout the hospital. Time spent by hospital personnel to locate the missing items is **LOST PRODUCTIVITY!**

A BETTER MOUSETRAP!

A.R.C. Distributors has developed *the* solution to this repetitive and costly problem. That solution is a superior wheelchair pouch made of **CLEAR** vinyl that eliminates the potential for these problems completely. The **CLEAR-VIEW** wheelchair pouch has an extra wide pocket and brass mounting grommets in the hanging straps that can be fastened securely using the existing seatback screws of the wheelchair.

Another key feature of the **CLEAR-VIEW** wheelchair pouch is the **PRICETAG!** These pouches are priced far *below* other opaque pouches even though they are "CLEARLY" unique in functional capabilities.

A.R.C. Distributors is a specialized medical products distributor based in Centreville, Maryland.
